

# CONTAINER SPECIFICATIONS

## STEAMSHIP CONTAINERS

IMPERIAL SYSTEM (UNITED STATES)								
MODE	GROSS CUBIC FEET	INSIDE LENGTH	INSIDE WIDTH	INSIDE HEIGHT	DOOR WIDTH	DOOR HEIGHT	USEABLE CUBIC FEET	TYPICAL WEIGHT RANGE
20 FCL'	1,100	19'4"	7'8"	7'10"	7'8"	7'6"	1,000	3,500-7,000
40 FCL'	2,200	39'6"	7'8"	7'10"	7'8"	7'6"	2,000	7,000-14,000
40' High Cube	2,600	39'6"	7'8"	8'10"	7'8"	8'6"	2,200	14,000-16,000
45' High Cube	3,000	44'6"	7'8"	8'10"	7'8"	8'6"	2,500	16,000-18,000

The above specifications are approximate and typical of the containers generally in worldwide use today. However, details will vary according to the shipping line utilized for any particular movement. A shipment with bulky items may require the next larger container size when approaching the maximum useable volume.

## WOODEN LIFT-VANS

### UniGroup Relocation standards are:

- Interior grade plywood construction
- Weather-proof lining
- Tightly packed, clearly marked
- Banded vertically and horizontally
